Applications are invited for a tenure-track, 9-month faculty position in Computer Animation. We seek to find an innovative professional committed to being part of a creative and engaging collaborative team of artists, designers, scientists, faculty and students. This is a joint appointment with the Advanced Computing Center for the Arts and Design and an appropriate department within the College of the Arts. Candidate will be expected to build on the strengths at ACCAD and interface with multidisciplinary programs within the arts and sciences. The position begins September 2005.

Responsibilities: Position requires teaching on both undergraduate and graduate level in the interdisciplinary, collaborative environment of the Advanced Computing Center for the Arts and Design (ACCAD) using state of the art resources. Duties also include the development of new courses, advising and committee work. Faculty are expected to have active creative careers in their own right.

Position Requirements: Applicants must hold an advanced degree in an art or design field, or in a related technical field. University-level teaching experience and a strong record of creative and/or scholarly activities is desired. Advanced training and substantial professional experience in one or more of the following areas is required: animation, three-dimensional modeling, rigging, surfacing, visual effects, digital lighting, motion capture, digital storytelling.

ACCAD (accad.osu.edu) is an interdisciplinary research and development environment that provides collaborative opportunities for graduate students and faculty interested in art and technology. The focus of research and academic activities at ACCAD is on 3D computer animation and virtual environments. ACCAD is one of eight units, (ACCAD, Art, Art Education, Art History, Dance, Design, Music, Theatre) within the College of the Arts (www.arts.osu.edu). The Ohio State University (www.osu.edu) consistently ranks among the top national public universities for undergraduate, graduate, and professional programs. Few universities can match our breadth of academic offerings and related interdisciplinary opportunities.

Application requirements: Candidates should show a body of work related to computer graphics/animation and indicate a strong research direction. Applications should include 1) a letter of application that addresses applicant's position qualifications 2) a current resume 3) a separate statement discussing the applicant’s creative work and approach to teaching 4) 10 examples and descriptions of applicant’s work 5) 10 examples and descriptions of student works 6) names, postal and email addresses, and telephone numbers of three professional references, 7) a self-addressed, stamped envelope. Copies of transcripts will be requested of finalists.
