Final Project Proposal (4 points)

Objective (1 point)
Describe your final project. What will it look like when it’s finished?
Why do you want to build it?
Include any URLs or references here that served as inspiration

Data flow diagram (1.5 points)
Be specific enough so that each box could be a 20 line script (or less).
Highlight (in red) the parts that you feel like you don’t know how to do

Interaction storyboard (1.5 points)
Illustrate (with stick figure drawings) how a human will interact with your system.
Break things down step by step (like a comic book)
